-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Objections

An amendment to claims was filed on January 10, 2005, replacing all prior versions and listings of claims in the application. Each amendment document that includes a change to an existing claim must include a complete listing of all claims ever presented, including previously canceled claims with status identifier. See MPEP 714 C(B). In this case, it appears that the amendment canceled claims 5-12, but does not indicate any status changes of these claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is directed to "a method of repairing and preventing the principal symptoms of damaged hair". In claim 1, the phrase "the principal symptoms of damaged hair" renders the claim vague and indefinite and it is not clear what the claimed method purports to repair and prevent. While applicant's specification discloses that hair damage typically manifests itself in "cuticle and protein loss from the hair fibre, excessive fibre stiffness, hair fibre brittleness and breakage and frayed or split ends" it is not clear whether these are how applicant defines "the principal symptoms of damaged hair" of the present claim. Clarification of the definition of the term is

necessary to determine the scope of the present invention and also because whether the aliphatic alcohol repairs and prevents cuticle and protein loss from hair fibre and breakage and frayed or split ends from mechanical force could potentially raise enablement issue.

The remaining claims are rejected as they depend on the indefinite base claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamoto et al. (JP 407330551 A, translation).

Yamamoto discloses a method of treating and conditioning hair with a hair treatment composition comprising 0.5-50 wt % of an organic solvent consisting of a 5-8C monohydric aliphatic alcohol, such as pentanol, hexanol, and 2-methyl-1-pentanol. See [0002], [0023]. The reference also teaches to make the products in the form of lotion and foam comprising an aqueous base and surfactants. See Examples.

Conclusion

No claims are allowed.
